**New Hampshire Gospel Radio Inc.**

Dear Friends of New Hampshire Gospel Radio,

An affiliate of

While we hear stories and adventures of faith on the radio that move and encourage us, we know many of you can relate and are also living out the life of faith on a dimly lit path of obedience. Hopefully, from listening to NHGR, you are blessed with profound insights as well as practical habits that assist you in keeping a God-centered life. Many of the ministries we broadcast and those who underwrite NHGR are doing a great job and striving to serve Christ faithfully. It pleases us to partner with others, and we know that by spreading the Word, NHGR is leaving a trail of breadcrumbs that help lead listeners in their pursuit of holiness because God's Word changes us!

We have been trying hard this year to keep the "Word" on the airwaves. Several instances of down internet services have taken us off-air recently in many parts of the state. The move to internet radio from old dependable satellite radio along with the summer's heat, brought with it many unique challenges that had to be monitored. Electrical equipment does not fare well in the heat. We are thankful to our volunteers who have been handling additional challenges and emergencies requiring immediate attention, due to the increased size of our network.

This newsletter is sent to our "closest friends," whom we cannot thank enough for your support through the years! We still need you to spread the word about Christian radio in New Hampshire! Many New Hampshire residents still do not know about NHGR (how can this be!). With your support, we can take NHGR to the next level, ensuring the Gospel message will be faithfully broadcast to the next generation without wavering. Thank you for all you do for NHGR!

On behalf of the Board of Directors and staff at NH Gospel Radio,  
Blessings to you in 2023!

**FUNDS ARE LOW**.....The show *MoneyWise* with Rob West airs on NHGR weekdays at 4 PM. You have probably heard them talk about the importance of having an emergency fund or setting financial goals. It is no different for businesses or ministries. We dream of entering 2023 with a reserve of \$50,000 since our funds are meager with the purchase of WJNH and increases in expenses. One example of a scenario we often experience is the need for quality backup equipment to use as replacements when damaged equipment must go out for repair. This summer, Pete and John scrambled to borrow a transmitter to keep us on the air. Currently, we have one out for repair for \$1,650 and ~\$400 for shipping. A single transmitter costs around \$10,000. We now have seven locations that all house a substantial amount of equipment. **We write this to hopefully articulate a real need and a specific goal you can partner with us to attain. We try never to ask for financial support lightly and know giving is a sacrifice.** More work is needed at NHGR; we have grown and are managing a larger listening area and network. We seek to move forward and thank our donors who anticipate the Good News to be proclaimed over New Hampshire.

.....**We need benefactors**

## Talk About Us! Spread the Love to the 603

After speaking with a donor last week and hearing her surprise when I told her we had many stations and tower site locations, I wondered how many others don't know. It feels as if we repeat this countless times. This past March, NHGR celebrated 23 years on the air, and many people still don't know about Christian Radio near them. This ministry is a fantastic resource to help grow the body of Christ and introduce the seeker to the One who brings purpose to our lives and saves our souls. Please feel free to talk about us!

Please take our survey. We value your feedback on our short survey.

1. Why do you like Christian Radio? a. Encouragement and inspiration b. Commentary from a biblical worldview c. Evangelism opportunity for the lost d. Advice and guidance for living e. Other
  2. Compared with other para-church ministries, how important do you think it is to support Christian radio? Rate on a scale of 1-10.
- We would love your input. If you were CEO of a radio ministry, how would you fund it?
